

Regardless of the emergency situation or hazard anticipated, one of the best things you can do is to make a plan and prepare your family beforehand.

## Create a Family Disaster Plan

- **Gather information.**
  - What disasters or hazards are most likely in your community? For your home?
  - How would you be warned?
  - How should you prepare for each?
- **Know the warning signals for your area.**
  - Learn the warning systems for your community.
  - Be sure you can hear or see the appropriate warning from your home.
- **Obtain insurance for your family and home.**
  - Check your homeowners insurance.
  - Get additional coverage for situations that may not be covered.
- **Stay alert for emergency broadcasts.**
  - Emergency Alert System broadcasts (radio, TV)
  - NOAA weather radio alerts
  - News sources – radio, television, internet
- **Choose a post-hazard meeting place for your family.**
  - A safe distance from your home for sudden emergencies (e.g., fire).
  - Outside your neighborhood in case you can't return home.
  - Learn where area evacuation shelters are located.
- **Make a family communication plan.**
  - Know how you will contact each other if you are at work, school or other location.
  - Have an out-of-state friend or relative serve as an emergency contact for everyone to call.
  - Keep a list of emergency phone numbers, including neighborhood contacts.
  - Give emergency numbers to all family members and post by every phone.
- **Make a family emergency supply kit.**
  - You may need to survive on your own temporarily until you can get assistance.
  - Prepare a kit with 3 or more days of supplies (food, water, clothing).
- **Share the above information with your family.**
  - Meet with all members of your household.
  - Discuss the types of hazards that could occur.
  - Discuss your family's plan.
  - Practice your plans.

- **Plan how you and your neighbors could work together during a disaster.**
  - Create a neighborhood communication plan.
  - Help neighbors who have special needs, such as elderly or disabled persons.
  - Make plans for child care in case parents cannot get home.
  - Learn plans for your work, children's schools, or other locations.
- **Don't forget to include plans for your pets.**

## Family Emergency Plan Situations

- **Shelter-in-place**
  - Take immediate shelter wherever you are – home, work, school or in between – rather than entering into a hazardous situation.
  - Used for situations such as severe storms, winter weather, biological emergencies.
  - Time will vary; few hours to several days.
- **Evacuation**
  - Leaving your current location and seeking shelter at a safer place.
  - For situations such as flood or chemical accidents.
  - Time will vary; days, weeks - it may be never for some situations (e.g., flood).
